

Step 1 – Press the HOME button.

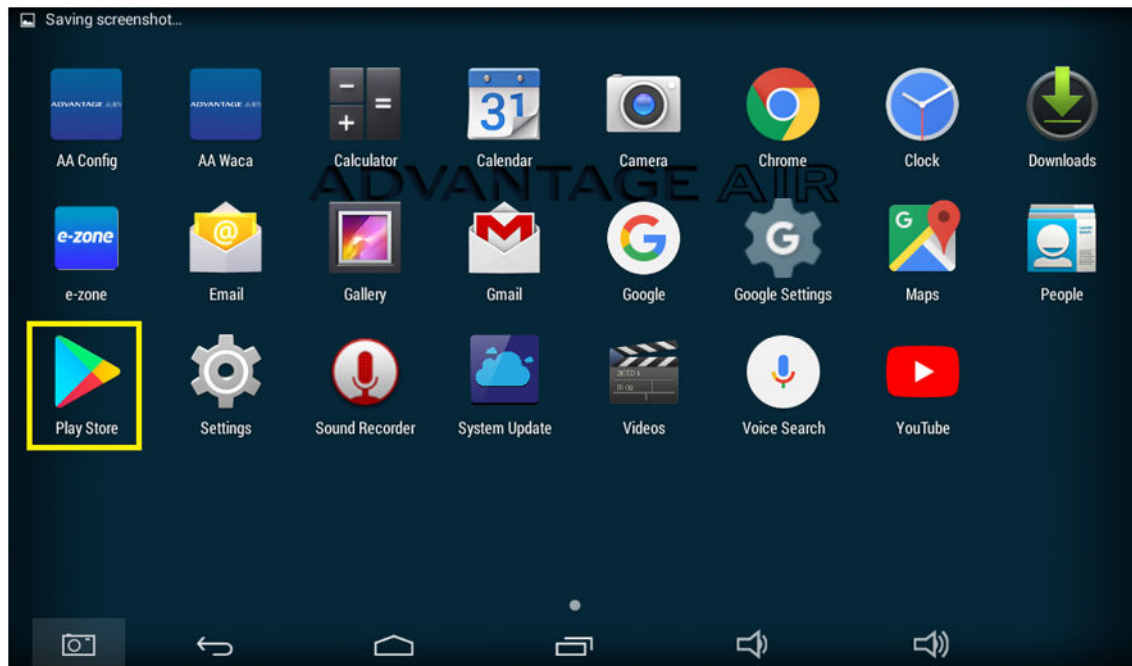

Step 2 – Press the APP draw button (Circle with 6 dots inside).

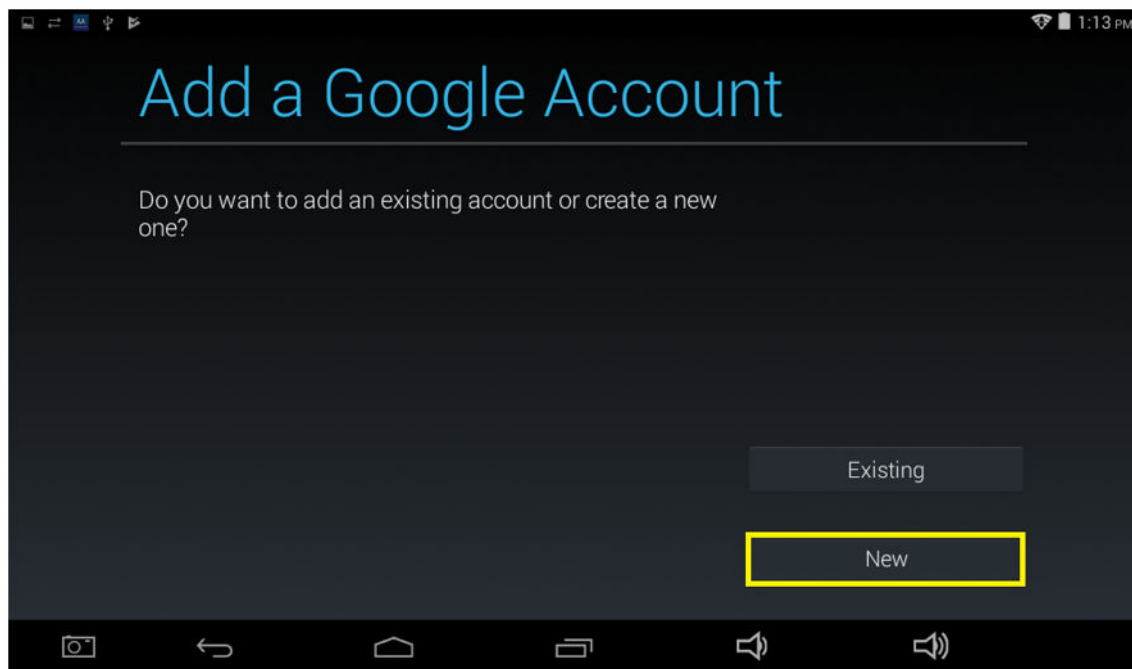

Step 3 – Press the settings button.

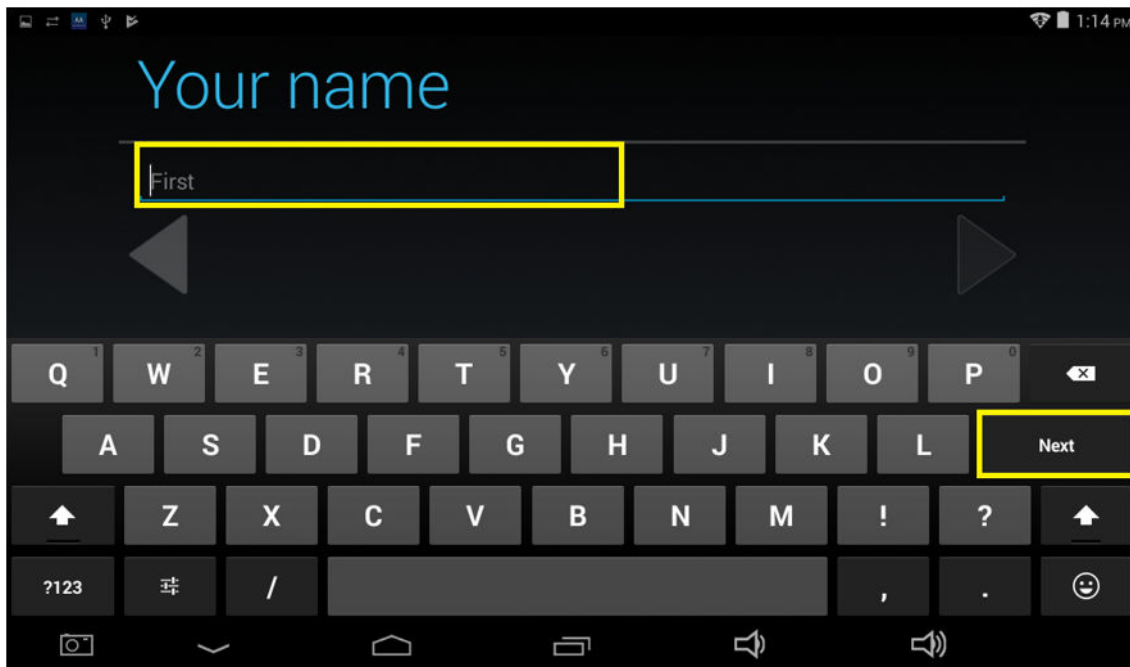

Step 4 – Connect to your Wi-Fi network

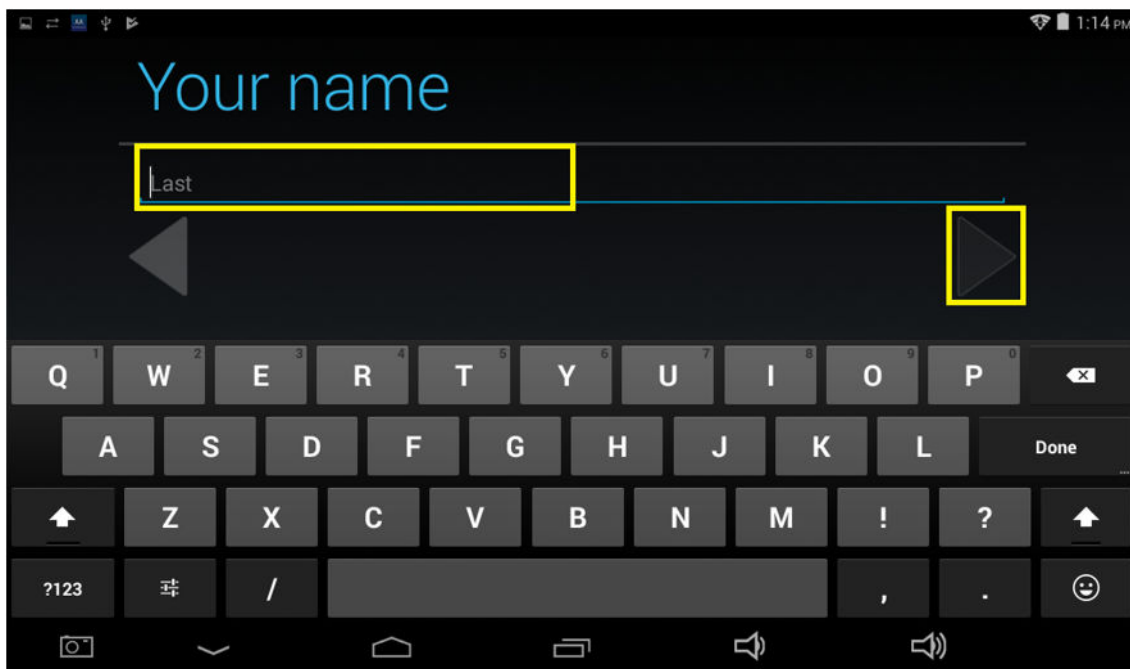

Step 5 – Press the Play Store icon.

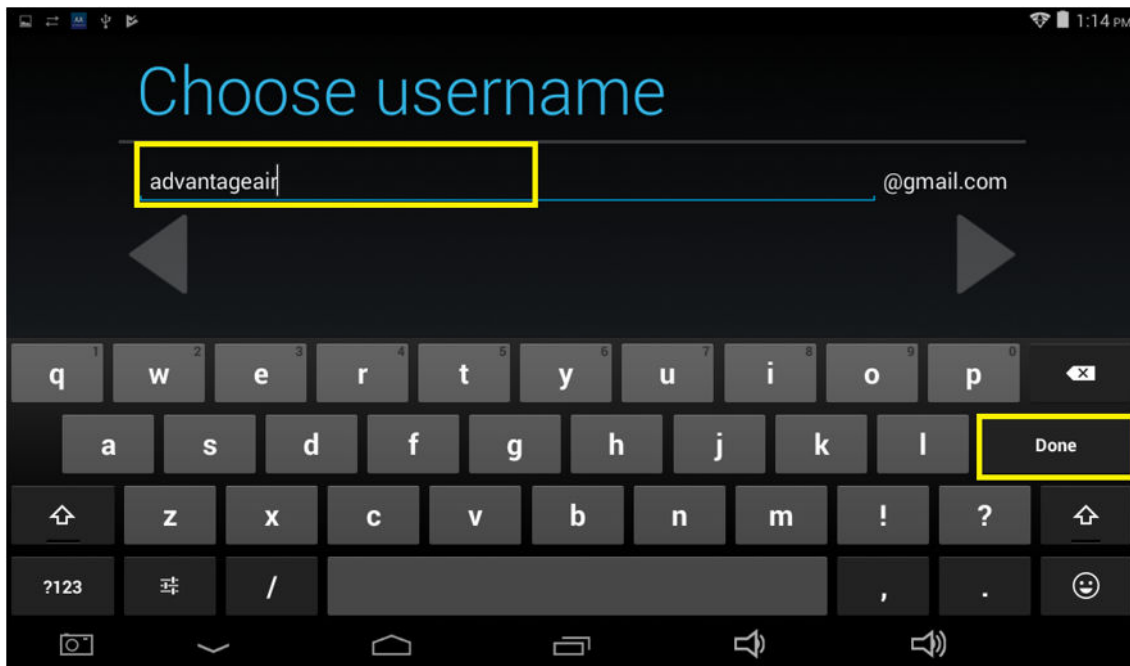

Step 6 – Now you have the option to create a new account or use an existing Google/Gmail account, we are going to press NEW for this exercise but if you already have a Google/Gmail account simply press EXISTING & then follow the instructions from STEP 14

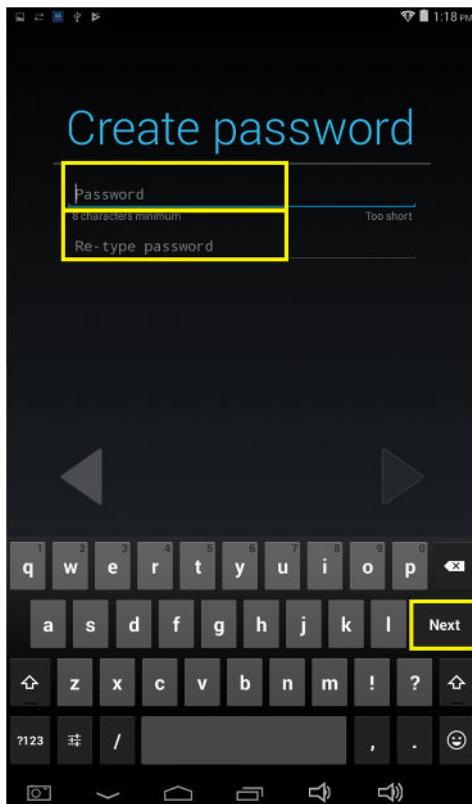

Step 7 – Enter a first name then press the Next button on the keyboard.

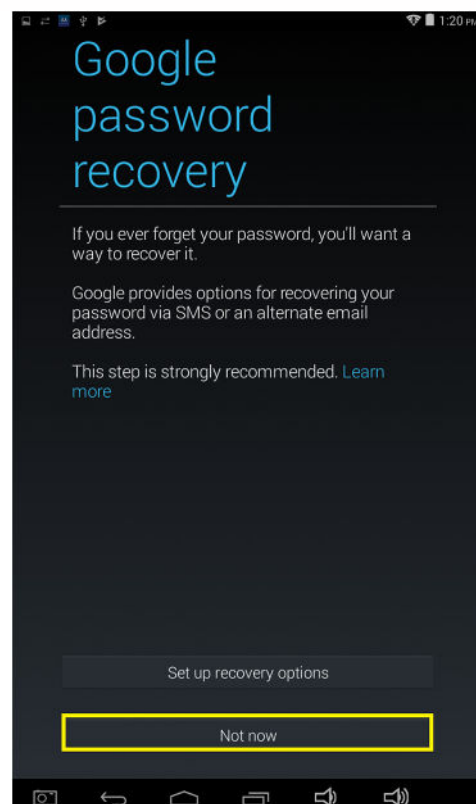

Step 8 - Enter your last name and press the Play Arrow

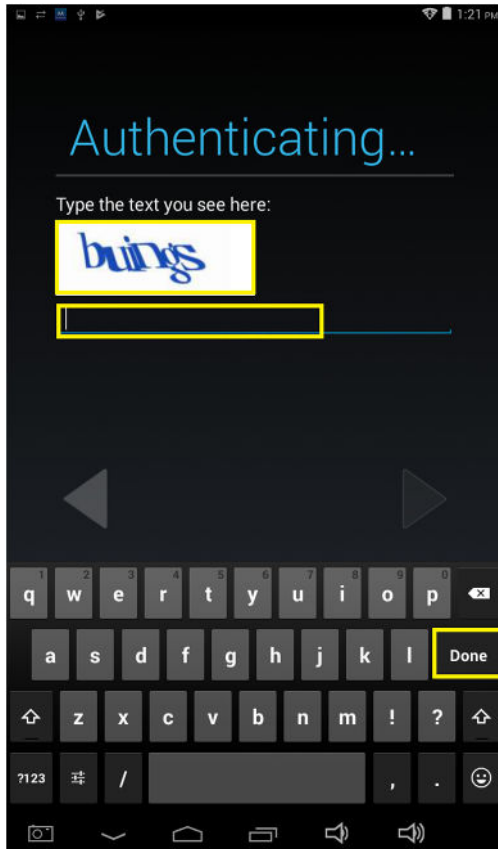

Step 9 – Enter your desired username then press the DONE button on the keyboard. If the username you have chosen is already taken, you will be given the opportunity to select an alternate name.

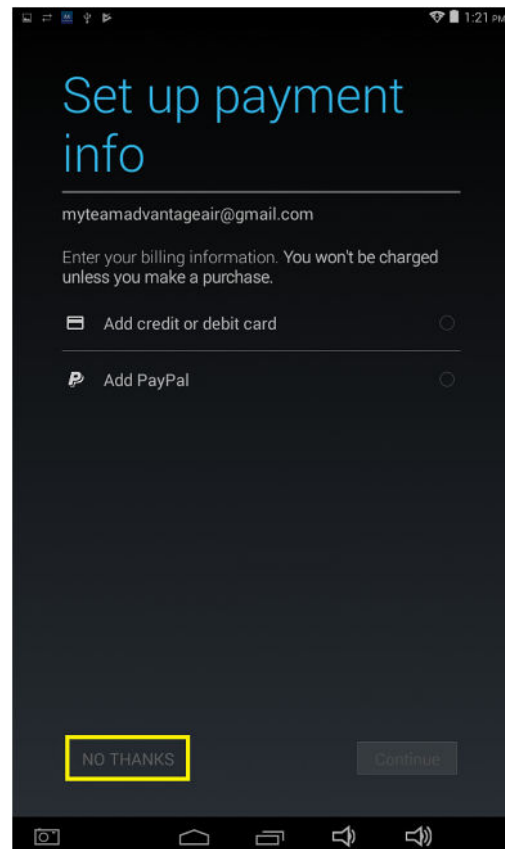

Step 10 & 11

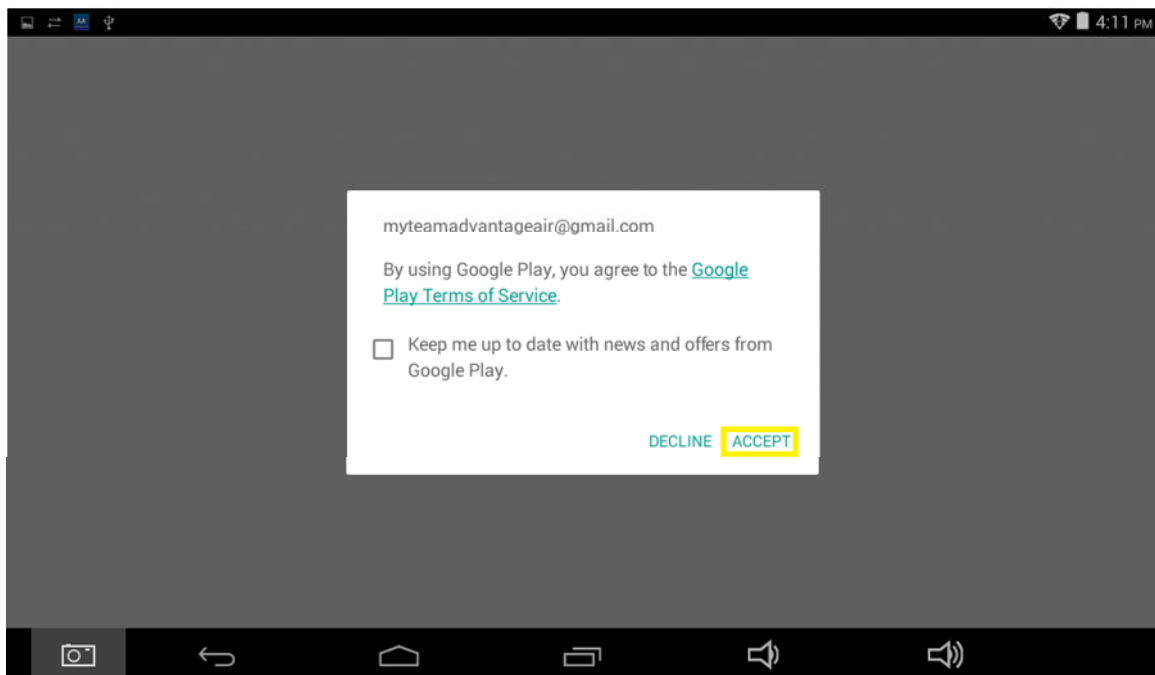

Enter your requested password (8 characters minimum, letters and number only) then press the NEXT button on the keyboard (Note: it may be easier to rotate your screen in to portrait for this step.). From here press not now when it asks for recover options.

Step 12&13

Enter the word shown in the white text box and press the done key on the keyboard. From here, Google will ask you to insert payment details. Just select no thanks and you can continue.

Step 14 – Accept the Google Play terms of service and you will have successfully added a Google account to your system.
